## Wildlife Health Proposal Online Application Directions

To submit a Wildlife Health Proposal application, **please read these directions carefully:**

To start a **NEW** online application, click on the appropriate link below. You will be taken to MAF's online application form. You will need to set up an account (unless you already have an account) and will then take a short eligibility quiz.

**NOTE:** Once you have started your online application, you will be given the option to save and finish the application later. Please see number 2 below. The following links will only work if you are starting a new online application. If the **NEW** online application links are accessed more than once, you will be creating more than one online proposal application.

In the event that you inadvertently create more than one application, multiple applications will be shown on your account page. Please delete all but the most recent application and select the latest version to continue your current application.
