Independent Auditor's Report

Board of Directors Morris Animal Foundation

Report on Financial Statements

We have audited the accompanying financial statements of Morris Animal Foundation, which comprise the statement of financial position as of June 30, 2019, and the related statements of activities, functional expenses, and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Morris Animal Foundation as of June 30, 2019, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Board of Directors Morris Animal Foundation

Emphasis of Matter

As discussed in note 1, the Foundation adopted the Financial Accounting Standards Board's Accounting Standards Update (ASU) 2016-14, *Not-for-Profit Entities (Topic 958) – Presentation of Financial Statements of Not-for-Profit Entities* as of and for the year ended June 30, 2019. The requirements of the ASU have been applied retrospectively for all years presented. Our opinion is not modified with respect to this matter.

Report on Summarized Information

We have previously audited Morris Animal Foundation's 2018 financial statements, and we expressed an unmodified audit opinion on those audited financial statements in our report dated November 16, 2018. In our opinion, the summarized information presented herein as of and for the year ended June 30, 2018, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Kundinger, Corder ? Engle, P.C.

Notes to Financial Statements

June 30, 2019

(1) Summary of Significant Accounting Policies

(a) Organization

Morris Animal Foundation (the Foundation) was founded as a nonprofit organization in 1948. The Foundation is a global leader in supporting scientific research that advances veterinary medicine. This research has improved the health and quality of life for dogs, cats, horses and wildlife around the world by leading to better preventions, diagnostic tools, treatment protocols and cures. The Foundation is funded by contributions and investment earnings from those contributions.

(b) Basis of Accounting and Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting and, accordingly, reflect all significant receivables, payables, and other liabilities.

The Foundation is required to report information regarding its financial position and activities according to the following net asset classifications:

Net assets without donor restrictions: Net assets that are not subject to donor-imposed restrictions may be expended for any purpose in performing the primary objectives of the organization. These net assets may be used at the discretion of the Foundation's management and the board of directors, and include board designated funds subject to the endowment spending policy.

Net assets with donor restrictions: Net assets subject to stipulations imposed by donors, and grantors. Some donor restrictions are temporary in nature; those restrictions will be met by actions of the Foundation or by the passage of time. Other donor restrictions are perpetual in nature, whereby the donor has stipulated the funds be maintained in perpetuity.

(c) Cash and Cash Equivalents

The Foundation considers all highly liquid investments with an initial maturity of three months or less, and that are not held as part of an investment portfolio, to be cash equivalents.

(d) Concentrations of Credit Risk

Financial instruments that potentially subject the Foundation to concentrations of credit risk consist principally of cash and investments, and contributions receivable. The Foundation places its cash and temporary investments with creditworthy, high-quality financial institutions. At times, a significant portion of the funds are not insured by the Federal Deposit Insurance Corporation.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(d) Concentrations of Credit Risk, Continued

Investments are under the guidance of the Foundation's investment committee and an independent advisor. Though the market value of investments is subject to fluctuations on a year-to-year basis, management believes that the investment policy is prudent for the long-term welfare of the Foundation.

Credit risk with respect to contributions receivable is considered by management to be limited because they are receivable from individuals with a demonstrated history of payment, or from estates.

(e) Contributions Receivable

Unconditional promises to give that are expected to be collected within one year are recorded at net realizable value. Unconditional promises to give that are expected to be collected in future years are recorded at the present value of their estimated future cash flows, if the discount is significant to the overall financial statements. If significant to the financial statements, the discounts are computed using risk-adjusted interest rates applicable to the years in which the promises are received; discount amortization is included in contribution revenue.

The Foundation uses the direct write-off method to recognize bad debt expense on uncollectible amounts.

Conditional promises to give are not included as support until the conditions are met.

(f) Investments

Investments are reported at fair value. Fair value is determined as more fully described in note 1(g).

Investments in marketable equity and fixed income securities with readily determinable market values are reported at fair value based on quoted prices in active markets. The market values for alternative investments represent the Foundation's pro-rata interest in the net assets of each investment and are based on financial information determined and reported by investment managers or on the basis of other information evaluated periodically by management. Alternative investments are not publicly traded on national security market exchanges, are generally illiquid and may be valued differently than if readily available markets existed for such investments. Because of inherent uncertainties of valuation of alternative investments, the reported market values of such investments may differ significantly from realizable values. Management is responsible for the fair value measurement of investments reported in the financial statements and believes that the reported values are reasonable.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(f) Investments, Continued

Investment return consists of the Foundation's distributive share of any interest, dividends, capital gains and losses generated from investments, as well as the change in fair value of the investments. Gains and losses attributable to investments are realized and reported upon a sale or disposition of the investment. Unrealized gains and losses are included in the change in net assets in the statement of activities.

(g) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Generally accepted accounting principles in the United States establishes a fair value hierarchy that prioritizes investments based on the assumptions market participants would use when pricing an asset. The fair value hierarchy gives the highest priority to quoted prices in active markets (observable inputs) and the lowest priority to an entity's assumptions (unobservable inputs). The Foundation groups assets at fair value in three levels based on the markets in which the assets and liabilities are traded and the reliability of the assumptions used to determine fair value. In addition, the Foundation reports certain investments using the "practical expedient" method. The practical expedient allows net asset value per share or its equivalent to represent fair value for reporting purposes when the criteria for using this method are met. Investments valued using net asset value per share or its equivalent are not categorized within the hierarchy.

These levels are:

- Level 1 Unadjusted quoted market prices for identical assets or liabilities in active markets as of the measurement date.
- Level 2 Other observable inputs, either directly or indirectly, including:
 - Quoted prices for similar assets/liabilities in active markets;
 - Quoted prices for identical or similar assets in non-active markets;
 - Inputs other than quoted prices that are observable for the asset/liability; and,
 - Inputs that are derived principally from or corroborated by other observable market data.
- Level 3 Unobservable inputs that cannot be corroborated by observable market data.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. These classifications (Level 1, 2 and 3) are intended to reflect the observability of inputs used in the valuation of investments and are not necessarily an indication of risk or liquidity.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(g) Fair Value Measurements, Continued

The carrying amount reported in the statement of financial position for cash and cash equivalents, contributions receivable, accounts payable, accrued liabilities and grants payable, approximate fair value because of the immediate or short term maturities of these financial instruments.

(h) Property and Equipment

Property and equipment are stated at cost at the date of purchase or, if donated, at the approximate fair market value at the date of donation, less accumulated depreciation. Depreciation is calculated using the straight-line method over the lesser of the estimated useful lives of the assets (3 to 10 years), or the lease term. The Foundation's policy is to capitalize all expenditures for property and equipment in excess of \$3,000 and with a useful life exceeding one year, and to expense normal repairs and maintenance as incurred. Management periodically evaluates whether events or circumstances have occurred indicating that the carrying amount of long-lived assets may not be recovered.

(i) Grants Payable

Grants authorized but unpaid at year-end are reported as liabilities. Grants scheduled for payments more than one year in the future have not been discounted to net present value because the discount is not significant.

(i) Contributions

Contributions received are recorded as net assets without donor restrictions or net assets with donor restrictions, depending on the existence and/or nature of any donor-imposed restrictions. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), net assets with donor restrictions are reclassified to net assets without donor restrictions and reported in the statement of activities as net assets released from restrictions.

(l) Donated Services

Donated services are recorded as contributions and corresponding expenses at their estimated fair values at the date of donation. Included in donated professional service revenue and program service expense are services donated by volunteer scientists who evaluate, select and monitor the animal health studies chosen to receive Foundation funding. The estimated value of these services in 2019 was \$1,264,592.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(m) Functional Allocation of Expenses

The costs of providing program and supporting services have been summarized on a functional basis in the accompanying statement of functional expenses. The Foundation incurs expenses that directly relate to, and can be assigned to, a specific program or supporting activity. The Foundation also conducts a number of activities which benefit both its program objectives as well as supporting services (i.e. fundraising and management and general activities). These costs, which are not specifically attributable to a specific program or supporting activity, are allocated by management on a consistent basis among program and supporting services benefited, based on either financial or nonfinancial data, such as headcount, square-footage, or estimates of time and effort incurred by personnel.

(n) Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

(o) Income Tax Status

The Foundation is exempt from federal and state income taxes under Section 501(c)(3) of the Internal Revenue Code, and contributions received qualify for the charitable contribution deduction. Income from activities not directly related to the Foundation's tax-exempt purpose is subject to taxation as unrelated business income. At times, certain of the Foundation's investment funds report unrelated business income which is taxable to the Foundation. Amounts reported to the Foundation during fiscal year 2019 resulted in a net loss; therefore, there was no unrelated business taxable income in 2019.

The Tax Cuts and Jobs Act of 2017 imposes federal tax on employers that provide certain transportation fringe benefits to employees. Although the Foundation provides these benefits, taxes were offset by losses incurred by certain partnerships in which the Foundation is invested.

The Foundation is required to determine whether a tax position (and the related tax benefit) is more likely than not to be sustained upon examination by the applicable taxing authority, based solely on the technical merits of the position. The Foundation believes it has appropriate support for any tax positions taken, and as such, does not have any uncertain tax positions that are significant to the financial statements. The Foundation's tax returns for 2016 through 2018 are subject to examination by the IRS, generally for three years after the date they were filed.

Notes to Financial Statements, Continued

(1) Summary of Significant Accounting Policies, Continued

(p) Subsequent Events

The Foundation has evaluated subsequent events through November 15, 2019, the date the financial statements were available to be issued.

(q) Prior Year Information

The financial statements include certain prior-year summarized comparative information in total but not by net asset class. Such information does not include sufficient detail to constitute a presentation in conformity with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the Foundation's financial statements for the year ended June 30, 2018, from which the summarized information was derived.

(r) Reclassifications

Certain prior year information has been reclassified to conform to current year presentation. The reclassifications had no effect on net assets or the change in net assets.

(s) New Accounting Pronouncement

During 2019, the Foundation adopted ASU No. 2016-14, *Not-for-Profit Entities (Topic 958) – Presentation of Financial Statements of Not-for-Profit Entities*, which is intended to improve how a not-for-profit entity classifies its net assets, as well as the information it presents in its financial statements about its liquidity and availability of resources, expenses and investment returns, and cash flows. The guidance replaces the three classes of net assets previously presented on the statement of financial position with two new classes of net assets, which are based on the existence or absence of donor-imposed restrictions.

(2) Availability and Liquidity of Financial Assets

The following reflects the Foundation's financial assets as of June 30, 2019 that are available for general expenditure within one year.

Cash and cash equivalents	\$ 4,094,870
Unrestricted contributions, receivable within one year	543,640
Amounts available through board resolution:	
Board designated general endowment appropriation	2,979,801
Donor restricted endowment earnings appropriation	<u>1,860,260</u>
Financial assets available for general expenditure	\$ 9,478,571

General expenditures include administrative, program, and fundraising expenses incurred in the conduct of the Foundation's ongoing activities. The Foundation anticipates collecting sufficient revenue to cover general expenditures not covered by the above current financial assets available largely through contributions.

Notes to Financial Statements, Continued

(2) Availability and Liquidity of Financial Assets, Continued

The Foundation's investments are invested for long-term appreciation and current income, and approximately 59% of the portfolio has various liquidity features. The Foundation's policy is to maintain three-times the annual spending needs with investments that have quarterly liquidity or shorter. Earnings on both board designated and donor restricted endowment funds are subject to the Foundation's distribution policy. Appropriations from board designated funds can be increased or decreased at the discretion of the board. In addition to appropriations for fiscal year 2020 made in accordance with the distribution policy, the board approved additional distributions from board designated funds in the amount of \$1,697,360.

(3) Contributions Receivable

At June 30, 2019, unconditional contributions are scheduled to be received as follows for years ending June 30:

2020	\$ 565,949
2021	95,834
2022	12,448
Total	\$ 674,231

Management has determined that all contributions receivable are collectible. Contributions receivable have not been discounted to net present value because the amount is insignificant.

(4) Investments

The Foundation's investment assets, which include private and publicly held investments, are dedicated to providing the financial resources needed to meet the Foundation's grant making and other charitable objectives. The Foundation's investments are held in various investment structures which may include foreign domiciled funds and pooled investments.

Marketable and private alternative investments are exposed to various risks that may cause the reported value of the Foundation's investment assets to fluctuate from period to period and result in a material change to the net assets of the Foundation. Investments in equity securities fluctuate in value in response to many factors such as the activities and financial condition of individual companies, business and industry market conditions and the general economic environment. The value of bond investments and other fixed income securities fluctuate in response to changing interest rates, credit worthiness of issuers and overall economic policies that impact market conditions.

Some investment managers retained by the Foundation are permitted to use various investment strategies and techniques that are designed to achieve higher investment returns with lower volatility and low correlations to major market indices and other asset classes. Strategies and techniques, such as the use of leverage, futures and forward contracts, option agreements, and other derivative instruments, create special risks and could increase the impact of adverse security price movements on the Foundation's investment portfolio.

Notes to Financial Statements, Continued

(4) Investments, Continued

Investments consist of the following at June 30, 2019:

Private investments	\$ 30,696,650
Private real investments	3,499,091
Less-correlated strategies	10,055,184
Fixed income	9,823,779
International emerging markets	7,396,419
Non-U.S. developed equity	8,679,283
US small/mid cap	2,005,695
US large cap	13,369,590
Cash and cash equivalents	5,775,146
Total investments	\$ 91,300,837

Certain of the Foundation's investments require that the Foundation commit to investing additional funds. At June 30, 2019, the Foundation had unfunded commitments totaling approximately \$16,500,000.

The following table summarizes the valuation of the Foundation's investments by the fair value hierarchy levels as of June 30, 2019:

Acceto

		Assets			
		Measured at			
	Fair Value	<u>NAV (a)</u>	Level 1	Level 2	Level 3
Private investments	\$ 30,696,650	30,696,650	-	-	-

U.S. large cap	13,369,590	8,822,979	4,546,611	-	-
Cash and cash equivalents	5,775,146		5,775,146		
Total investments	\$ <u>91,300,837</u>	63,173,010	28,127,827		

(a) Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient, which is a reasonable estimate of fair value, have not been classified in the fair value hierarchy. The fair value amounts presented in the above table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statement of financial position.

All Level 1 investments have been valued using a market approach. All other investments are valued at net asset value per share (or its equivalent) as permitted under the practical expedient rule. There were no changes in valuation techniques during the current year.

(4) Investments, Continued

The following table summarizes the significant information related to investments valued at net asset value per share (or its equivalent) as of June 30, 2019:

	<u>Fair Value</u>	Unfunded Commitments	Redemption <u>Frequency</u>	Redemption Notice Period
Private investments (a)	\$ 30,696,650	12,061,300	None	N/A
Private real investments (b)	\$ 3,433,542	2,571,848	None Monthly to	N/A
Less-correlated (c)	\$ 8,321,029	1,500,000	semi-annually Monthly to	60-180 days
Int'l emerging markets (d)	\$ 4,035,375	_	quarterly None to	10-60 days
Fixed income (e)	\$ 3,574,923	337,669	quarterly Monthly to	90 days
U.S. equity funds (f)	\$ 10,828,674	_	quarterly	30-90 days
Non-U.S. developed Equity (g)	\$ 2,282,817	_	Quarterly	90 days

- (a) This category consists of twenty-one private investment funds, all of which are illiquid. Approximately 59% of this category is comprised of Morgan Creek Partners funds totaling \$18,135,798. The majority of the funds specialize in fund of fund investments that invest primarily in energy and natural resources, buyouts, venture capital and real estate. Approximately 18% of this category is in a partnership that targets managers whose investment strategies include growth equity, cross-over, multi-stage venture, seed stage and early stage investing. Approximately 7% of this category is in a special opportunities partnership that focuses on investments in private technology companies. Another 7% of this category consists of a fund that invests in companies that derive at least 50% of their revenue from the natural resource industry. Approximately 4% of this category is in a partnership fund that specializes in lower middle market buyout focused on the defense, aerospace and maritime industries. The remaining 5% is invested in various funds with various investment strategies. All of the funds in this category are valued using net asset value per share.
- (b) This category consists of five funds, most of which are illiquid. Approximately 44% of this category consists of a fund-of-funds that seeks to invest in buyout funds, venture capital, real estate, and energy funds. Approximately 18% of this category consists of a fund that invests primarily in select global aircraft and aviation related hard and soft assets. Approximately 15% is invested in a fund that focuses on event-driven and distressed investment strategies. Approximately 12% is invested in a global equity long/short institutional fund which seeks managers with a fundamentally different risk/return profile than what is offered by the market.

(4) Investments, Continued

(b) Continued

The remaining 11% is invested in a fund that seeks investments with the opportunity to create or capture value across three types of real estate transactions: corporate platforms, loans and securities, and direct assets. The fair value of all funds in this category has been estimated using net asset value per share.

- (c) This category consists of five funds with varying liquidity features. Approximately 36% of this category consists of a multi-manager fund of funds that deploys its assets to accounts managed by sub-advisors who invest principally in global equity markets by employing a long/short investment strategy. Approximately 25% of this category is in a fund that invests across a wide variety of market caps with large and mid-cap positions comprising the bulk of the portfolio. The fund takes offsetting long and short positions in comparable securities which typically have an economic relationship to each other. Approximately 20% of this category consists of a market-neutral, long/short equities fund investing in equity securities listed on global exchanges. The remaining 19% is invested in a partnership that seeks to generate meaningful, uncorrelated returns by exploiting structural inefficiencies and short-term pricing anomalies in global equity index volatility markets. The fair value of all funds in this category has been estimated using net asset value per share.
- (d) This category consists of two funds. Approximately 64% is invested in a fund that invests primarily in both long and short Asia-related equity investments with the objective of achieving long-term significant capital gain while maintaining low correlation with relevant indices. Approximately 36% of this category is invested in a fund that invests in emerging markets in Asia, Latin America, Eastern Europe, the Middle East, and Africa using a long-only strategy. The fair value of the funds in this category has been estimated using net asset value per share.
- (e) This category consists of two funds with varying liquidity features. Approximately 74% of this category consists of a fund that invests primarily in public and private non-investment grade and non-rated debt securities. The remaining 26% consists of a fund that invests primarily in senior secured corporate debt instruments based mainly in North America. The fair value of the funds in this category has been estimated using net asset value per share.

(4) Investments, Continued

- (f) This category consists of five funds with varying liquidity features. Approximately 22% is invested in a fund dedicated to exploiting opportunity in industries driven by technological innovation, specifically in the technology, d-commerce, internet media, traditional media, alternative energy and telecom industries. Approximately 18% is invested in U.S. and non-U.S. long equity positions, short equity positions, and select fixed income positions with the objective of earning long-term rates of return with an emphasis on capital preservation. Approximately 15% of this category invests primarily in equity securities with the objective of achieving above-average, long-term capital appreciation. Approximately 21% of this category invests primarily in equity securities with an emphasis on mid- to large- capitalization companies. Approximately 24% of this category invests primarily in U.S. and non-U.S. equity securities publicly traded on U.S. exchanges using a quantitative, long-biased investment strategy. The fair value of the funds in this category have been estimated using net asset value per share.
- (g) This category consists of a long/short global equity hedge fund specifically focusing on Europe, but also North America and Asia. The fund seeks to capture the value gap between market price and intrinsic value independent of market performance and the economic cycle. The fair value of the fund in this category has been estimated using net asset value per share.

(5) Property and Equipment

Property and equipment consists of the following at June 30, 2019:

Office furniture and equipment	\$ 262,856
Computer hardware and software	272,561
Leasehold improvements	38,700
	574,117
Accumulated depreciation	(293,753)
Property and equipment, net	\$ <u>280,364</u>

(6) Grants Payable

Grants which have been approved but not paid are due as follows for years ending June 30:

2020	\$ 3,630,560
2021	939,726
2022	278,817
2023	105,743
2024	100,000
Thereafter	25,000
Total grants payable	\$ 5,079,846

Notes to Financial Statements, Continued

(7) Charitable Gift Annuities Payable

Charitable gift annuities are arrangements between a donor and the Foundation in which the donor contributes assets to the Foundation in exchange for a promise for the Foundation to pay the donor a fixed amount for a specified period of time. Assets received have been recognized at fair value, and an annuity payment liability of \$825,263 at June 30, 2019 has been recognized at the present value of the future cash flows projected to be paid. The liability has been calculated by discounting the future cash flows using rates obtained from the Internal Revenue Code mortality tables and the applicable federal rate. Included in the investment balance in the accompanying statement of financial position are annuity reserves totaling \$1,738,402 to cover the annuity payment liability.

(8) Net Assets

Net assets without donor restrictions are as follows at June 30, 2019:

Undesignated	\$ 6,123,553
Board designated endowment	23,659,625
Total net assets without donor restrictions	\$ 29,783,178

The board designated endowment funds are subject to the endowment spending policy as described below.

Net assets with donor restrictions consist of the following at June 30, 2019:

Specific purpose or time:		
Canine health and research	\$ 6	5,695,921
Veterinary student scholars program		113,174
Feline health and research		70,566
Wildlife and special species health and research	_1	,294,712
Purpose or time restrictions	_8_	3,174,373
Donor restricted endowments:		
Perpetual endowments	50),115,532
Term endowments and unappropriated earnings		
on perpetual endowments	_1	,939,553
Donor restricted endowments	<u>52</u>	2,055,085
Total net assets with donor restrictions	\$ <u>60</u>	0,229,458

During the year ended June 30, 2019, net assets totaling \$5,135,176 were released from restriction due to the passage of time, incurring expenditures in accordance with donor restrictions, or appropriation of endowment earnings or funds for expenditure in accordance with the terms of the endowment agreements.

Endowment Funds

The Foundation's endowment net assets consist of the following at June 30, 2019:

	Without Donor Restrictions	With Donor Restrictions	Total Endowments
Board designated endowments Term endowments and unappropriated	\$ 23,659,625	_	23,659,625
earnings on perpetual endowments	_	1,939,553	1,939,553
Perpetual endowments	<u> </u>	50,115,532	50,115,532
Total endowment net assets	\$ <u>23,659,625</u>	<u>52,055,085</u>	<u>75,714,710</u>

Perpetual endowments consist of fourteen donor restricted funds subject to the terms of the endowment agreements. Net assets associated with these endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.

In accordance with the Uniform Prudent Management of Institutional Funds Act (UPMIFA), the perpetual endowment funds consist of (a) the original value of gifts donated to the endowment, (b) the original value of subsequent gifts to the endowment, and (c) accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund, unless the donor specifies that the corpus of the endowment fund can be appropriated for expenditure in accordance with the Foundation's spending policy.

In accordance with UPMIFA, the Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

- (1) The duration and preservation of the fund
- (2) The purpose of the Foundation and the donor-restricted endowment fund
- (3) General economic conditions
- (4) The possible effect of inflation and deflation
- (5) The expected total return from income and the appreciation of investments
- (6) Other Foundation resources
- (7) The investment policies of the Foundation

Notes to Financial Statements, Continued

(8) Net Assets, Continued

Following are the changes in the endowment net assets for the year ended June 30, 2019:

	Without Donor Restrictions	With Donor Restrictions	Total Endowments
Endowment net assets, June 30, 2018	\$ 20,980,038	47,099,227	68,079,265
Investment return	2,909,722	5,018,467	7,928,189
Contributions	5,523,350	101,175	5,624,525
Appropriated for expenditure	<u>(5,753,485</u>)	(163,784)	(5,917,269)
Endowment net assets, June 30, 2019	\$ <u>23,659,625</u>	<u>52,055,085</u>	<u>75,714,710</u>

Return Objectives and Risk Parameters

The Foundation has adopted investment and spending policies for endowment assets that attempt to provide a reasonable, predictable, stable and sustainable level of distribution that supports current needs while seeking to maintain the purchasing power of the endowment assets. Under this policy, as approved by the board of directors, the endowment assets are invested in a manner that is intended to preserve the real purchasing power and seek stable real total returns over the long-term while maintaining adequate current liquidity and cash flow to meet operating needs and with an emphasis on preservation of principal.

Strategies Employed for Achieving Objectives

To satisfy its long-term rate-of-return objectives, the Foundation relies on a total return strategy in which investment returns are achieved through both capital appreciation (realized and unrealized) and current yield (interest and dividends). While preservation of capital is important, the Foundation also believes that varying degrees of investment risk are generally rewarded with compensating returns.

Spending Policy and How the Investment Objectives Relate to Distribution Policy Distributions from the endowment funds are based on 4% or 5% of the twelve quarter trailing average of each separate endowment fund, depending on donor instructions. It is the expectation that on average, over the long term, the overall draw will be generally lower than 5% of the assets of the investment pool.

(9) Retirement Plan

The Foundation provides a tax sheltered annuity plan (the Plan) for all eligible employees. Employees are able to make elective deferrals beginning on their date of hire, and are eligible for matching contributions after 90 days of service. Participants may elect to defer up to 100% of their compensation, not to exceed a certain dollar limit set by law. The Foundation makes matching contributions equal to 100% of the participant's elective deferral, up to 6% of the participant's compensation. All contributions to the Plan vest immediately. Employer contributions in 2019 were \$174,218.

Notes to Financial Statements, Continued

(10) Commitments

Office Lease

The Foundation leases its office space and certain equipment under non-cancelable operating lease agreements. The equipment and office leases expire in July 2019 and December 2024, respectively. Future minimum lease payments required under the lease agreements are as follows for years ending June 30:

2020	\$	259,180
2021		269,051
2022		274,983
2023		268,447
2024		265,474
Thereafter	-	158,114
Total	\$ 1	,495,249

Rent expense in 2019 was \$233,015.

Canine Lifetime Health Project

The Foundation launched the Canine Lifetime Health Project (CLHP) in 2011 to identify genetic, environmental and nutritional risk factors leading to the development of cancer and other health conditions in dogs. The project enrolls golden retrievers and follows them for up to 13 years. The Foundation expects to spend roughly \$32 million on CLHP-related costs over the life of the project.
