Minimum Cat Care

Places to Climb

Each cat need to climb to the highest point in the room. Use cat trees, book cases or cat shelves.

Places to Hide

Each cat needs a cozy, small place to hide alone. Try cat caves, cardboard boxes

A Way to Hunt

Cats need to hunt for multiple small meals day and night, not eat from a bowl. Use Doc & Phoebe's Hunting Feeder and Wet Feeder

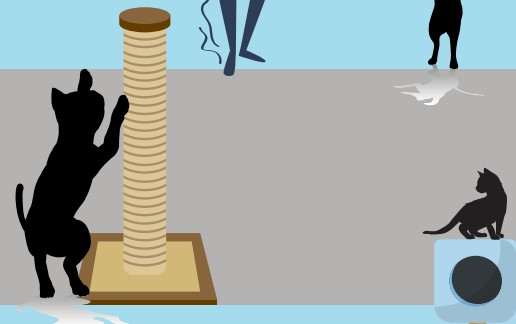

Litter Box They Like

Very large, scooped twice a day, easy to get in and out of, safe from other cats, dogs, kids, loud noises

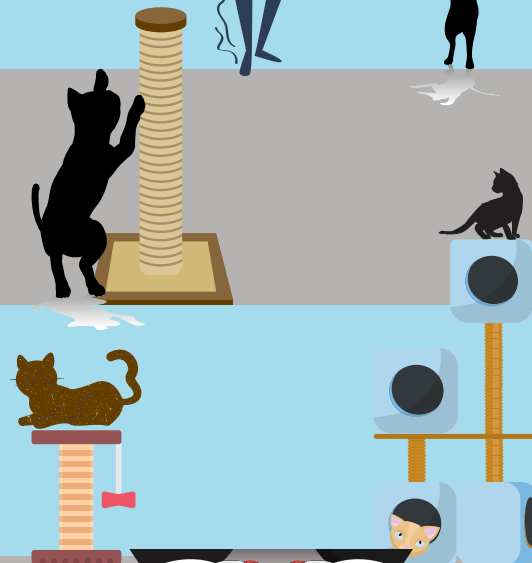

Interaction They Like

5 Min of active play twice a day, and respect their need to be alone

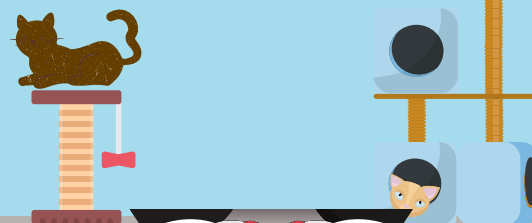

Things to Scratch

Tall, sturdy, so that the cat is able to get a full stretch

Respect for Territory

Cats can live in harmony when all of the above resources are met for EACH cat

Sensitive to smell

A cat's sense of smell is much more powerful than ours. Avoid fragrances in cleaning products, litter, air freshener etc.
