FIRST AWARD PROPOSALS
SCORING RUBRIC

Funding for research to assist early-career investigators in establishing a successful, mentored research program.

Scientific Merit

Quality of hypotheses and objectives, independence of objectives, experimental design and methods, data analysis and preliminary data (if applicable). Ability of the proposed research to answer the hypotheses and affect the problem addressed.

1.0 - 5.0 pts

Potential Impact

Importance of the study in solving a significant animal health or wider welfare issue, benefits for non-academic stakeholders and strength of stakeholder engagement.

1.0 - 5.0 pts

Proposal Quality

Attainability (likelihood of completion in the given timeline, adequacy of expertise, facilities and equipment), grantsmanship, and appropriateness of the budget.

1.0 - 5.0 pts
