

# Veterinarian Annual Questionnaire Diagnosis List

Diagnoses are reported by body system. Please refer to this list of potential diagnoses (shown in the order they appear in the questionnaire) to report each diagnosis in the appropriate body system.

Each category also contains an “other” field in which you can enter a diagnosis not contained in the drop-down menu.

When adding multiple other/free text diagnoses within one body system or when a diagnosis occurs more than once in the 12-month period (example – pregnancy or otitis), please click the plus symbol to “insert a row” to list the date of each new occurrence. (Recheck examinations do not constitute a new occurrence and do not need to be listed.)

Neoplasia		Cardiovascular / Respiratory	Skin
Hemangiosarcoma*	Nasal Tumor	Arrhythmia	Anal Sac/Gland Disorder
Mast Cell Tumor *	Nervous System Tumor	Cardiomyopathy	Atopy
Lymphoma *	Pancreatic Tumor	Congestive Heart Failure	Dermatitis
Osteosarcoma *	Papilloma	Cough	– Bacterial (Pyoderma)
Adrenal Tumor	Perianal Adenocarcinoma	Heartworm Infection	– Contact
Basal Cell Tumor	Perianal Adenoma	Murmur	– Flea Allergy
Bile Duct Tumor	Pituitary Tumor	Pneumonia	– Food Allergy
Bladder Tumor	Plasmacytoma	Pulmonic Stenosis	– Non-Specific
Epidermoid Cyst	Prostate Tumor	Subaortic Stenosis	– Perianal
Eye Tumor	Sebaceous Adenoma		– Perivulvar
Hair Matrix Tumor	Soft Tissue Sarcoma		– Pododermatitis
Heart Tumor	Squamous Cell Carcinoma		Demodectic Mange
Histiocytic Sarcoma	Stomach/Intestinal Tumor		Dermatophytosis
Histiocytoma	Testicular Tumor		Dry Skin
Kidney Tumor	Thymoma		Hot Spots
Leukemia	Thyroid Tumor		Ichthyosis
Lipoma			Lick Granuloma
Liver Tumor			Papilloma
Lung Tumor			Pruritis
Mammary Tumor			Sarcoptic Mange
Melanoma			Seasonal Allergy
Multiple Myeloma			Sebaceous Cyst
Endocrine		Gastrointestinal	Hematologic
Addison’s Disease (Hypoadrenocorticism)	Bloat with Torsion (GDV)	Bloat without Torsion	Anemia
Cushing’s Disease (Hyperadrenocorticism)	Chronic Colitis	Diarrhea	Thrombocytopenia
Diabetes Insipidus	Food Sensitivity	Gastritis/Gastroenteritis	Von Willebrand Disease
Diabetes Mellitus	Gastrointestinal Foreign Body	Megaesophagus	
Hypercalcemia	Malabsorptive Disorder	Pancreatitis	
Hypothyroidism	Vomiting		
Pancreatic Insufficiency			

\*Golden Retriever Lifetime Study cancer of primary interest. Please contact the study team for immediate and additional reporting required when these cancers are suspected or diagnosed.

## Diagnosis List CONT.

Urinary		Nervous		Musculoskeletal	
Bladder Infection/Cystitis		Cauda Equina Syndrome		Bone Fractures	
Bladder Stones		Dementia or Senility		Cruciate Ligament Rupture	
Crystalluria		Horner's Syndrome		Elbow Dysplasia	
Ectopic Ureter		Laryngeal Paralysis		Growth Deformity	
Incontinence		Limb Paralysis		Hip Dysplasia	
Kidney Failure		Myasthenia Gravis		Intervertebral Disc Disease	
– Acute		Seizures of Unknown Origin (Epilepsy)		Lameness	
– Chronic		Trauma/Injury		Osteoarthritis	
Kidney Infection/Pyelonephritis		Wobbler Syndrome		Osteochondritis Dissecans (OCD)	
Kidney Stones				Panosteitis	
Proteinuria				Patellar Luxation	
				Rheumatoid Arthritis	
				Spondylosis	
				Trauma/Injury	
Eye		Ear/Nose/Throat		Reproductive	
Cataracts	Keratoconjunctivitis Sicca (KCS)	Aural Hematoma	Epistaxis	Cryptorchid - Bilateral	Preputial Infection
Conjunctivitis	Pigmentary Uveitis	Hearing Problem	Otitis Externa	Cryptorchid - Unilateral	Prostate Abscess
Corneal Ulcer	Progressive Retinal Atrophy or Degeneration	Pharyngitis	Rhinitis	Dystocia	Prostate Enlargement (Benign)
Distichiasis	Third Eyelid Tear	Tonsillitis	Upper Respiratory Infection	Mastitis	Prostatitis
Ectropion	Gland Prolapse (Cherry Eye)			Papilloma/Genital Warts	Pyometra
Entropion	Trauma/Injury			Pregnancy	Recessed Vulva
Glaucoma	Uveitis				Vaginitis
Imperforate Lacrimal Punctum					
Iris Cyst					
Infectious Disease/Parasites					
Anaplasma	Leishmania				
Babesia	Leptospirosis				
Coccidia	Lyme Disease				
Eimeria	Parvovirus				
Ehrlichia	Rocky Mountain Spotted Fever				
Fleas	Roundworms				
Fungal Infection	Tapeworms				
Giardia	Ticks				
Granuloma	Tracheobronchitis (Kennel Cough)				
Hookworms	Whipworms				
Influenza					
Isospora
