PILOT STUDY GRANT PROPOSAL

PROGRAM SUMMARY
The mission of Morris Animal Foundation is to bridge science and resources to advance the health of animals. To achieve this aim, we fund hypothesis-driven, humane animal health research projects with high scientific merit and the potential for significant impact on animal health.

Pilot Study Grants are designed to provide funding for innovative ideas to accelerate discovery and advance MAF’s mission.

Proposals should be designed to convince the reviewers that the proposed project will advance the science of animal health; the investigator clearly understands the health problem and has the expertise to conduct the study; and the approach is scientifically sound.

QUALIFICATIONS OF APPLICANT
- All investigators are eligible to apply.
- If the Principal Investigator is not based in the country where the research is to be conducted, then the proposal must have the support of at least one co-applicant based in-country.

PILOT STUDY CRITERIA
- **Mission Adherence**: Projects must advance the science of canine, feline, equine, llama, alpaca, or wildlife health. Projects oriented toward human health and agricultural animal health do not fall within Morris Animal Foundation’s mission and will not be accepted.
- **Health Study Policy**: Projects must adhere to Morris Animal Foundation’s Health Study Policy for Animals Involved in Research.
- **Application Limits**: A maximum of one application as Principal Investigator, per species call, per year, is permitted.
- **Resubmissions**: A proposal that is not approved for funding, but eligible to resubmit, can be re-submitted a maximum of two times (three total submissions).
- **Budget**: The budget cannot exceed $10,800 ($10,000 plus 8% for indirect costs if charged by your institution).
- **Duration**: The maximum study duration is one year.
- **Preliminary Data**: Preliminary data is not required.

APPLICATION PROCESS
As of November 2019, Morris Animal Foundation has begun using a new grant application and management software called Fluxx. All past, current and new grant applicants will need to create a new account to access past grant information and submit new applications. Visit maf.fluxx.io to create your account and submit an application.

Both the Principal Investigator and the individual submitting the application (if different from the Principal Investigator) must create an account before applying for funding. Your account must be reviewed and validated by Morris Animal Foundation, which may take up to two business days, so please plan to create an account several days prior to the proposal deadline. For details on how to create an account and submit an application, view our Fluxx Applicant User Guide.

Revised July 2020
Morris Animal Foundation grant applications have two components: an online application and a full proposal attachment. Applications must be received by 4:59 PM ET on the designated due date. To submit an application, please complete the following:

1. **Online Application** with contact information for the investigator(s), institution, and key project information.
2. **Full Proposal** document, using the proposal template, uploaded to the online application (see proposal guidelines below).

**REVIEW PROCESS**

All proposals submitted to Morris Animal Foundation go through the following review process. For more details about our review process, please watch our video.

1. Researchers submit grant proposals.
2. Each abstract is reviewed on scientific merit and potential impact by five Scientific Advisory Board (SAB) members.
   a. Only the highest scoring abstracts will advance to full proposal review. Proposals not chosen for full review will not receive written reviewer feedback.
3. Proposals are reviewed internally for adherence to guidelines.
4. Full proposals that pass abstract and internal review are assigned to two SAB member reviewers. Proposals are reviewed and scored based on this rubric.
5. Reviewers present evaluations to the full SAB at an annual review meeting. Based on scores, the SAB recommends projects for funding.
6. All projects recommended for funding are reviewed by Morris Animal Foundation’s Animal Welfare Advisory Board (AWAB) for adherence to our Health Study Policy for Animals Involved in Research.

**PROPOSAL GUIDELINES**

Failure to adhere to these guidelines will result in disqualification.

1. **Proposal Format:**
   a. Proposals must be completed using this template. Please do not remove any headers or sections from this template. If any of the sections are not applicable, leave the header in your proposal and indicate this with “N/A”. The order of the written proposal must follow the outline described below, including the use of outline numbers and headings provided in the template.
   b. Single-spaced or greater, using no smaller than Times New Roman 11-point font with a minimum of ¾ inch margins.
   c. The full proposal must be converted to a single PDF document that includes all letters and attachments.
   d. Technical terminology should be defined on first usage; acronyms and abbreviations may be used subsequently.

2. **Proposal Outline:**
   a. Abstract (one-page limit): Abstracts should not contain information that identifies the investigators or any charts or graphics.
      i. Title: Limit 150 characters, including spaces.
      ii. Rationale
      iii. Hypothesis/Objectives
      iv. Experimental Design and Methods
      v. Preliminary Data: Not required for Pilot Studies.
      vi. Expected Results
      vii. **Budget and Timeline:** Include each year’s total budget and project grand total including
indirect costs.

viii. Potential Impact for Animal Health

B. Title Page (one-page limit): Name, institution, and email address of Principal Investigator and all co-investigators.

C. Resubmission Summary (three-page limit — excluding copy of the original review): If this proposal is a resubmission of a previously-reviewed full proposal, include a copy of the review and your responses to the reviewer’s comments. Please answer questions thoroughly and be aware that your resubmission might be reviewed by different SAB members than previous submissions.

D. Study Proposal (five-page limit including figures, tables and graphics).
   i. Hypothesis and Objectives: Be precise and enumerate specific, testable hypotheses with realistic objectives to be met within the timeline and budget of the proposal.
   ii. Justification, Significance and Literature Review: Clearly describe the background of the problem, justify the need for the study, and state the importance of expected findings. The literature review should indicate the current status of research in the area, including the investigator’s contributions.
   iii. Preliminary Data: Succinctly describe any previous results by the investigator which support the proposed research. If this project is a continuation of a previous or current Morris Animal Foundation study, include grant ID number, title and a brief summary of the progress and/or final results. Preliminary data is not required for Pilot Studies.
   iv. Experimental Methods and Design: Describe the experimental approach, including the design, experimental methods, number of animals, treatments, sampling schedules, potential pitfalls, and alternative approaches for each objective. A thorough description of proposed data analysis methods must be included.
   v. Timeline: Indicate the sequence and schedule of experiments as well as the duration of the project. Justify that the objectives can be completed in the given timeline. A maximum of one year is permitted. Include sufficient time to complete data analysis.
   vi. Expected Results: Indicate expected results, your proposed plan for disseminating information generated by your work to the scientific and lay audience and potential means of translating the results into practice.

E. Sample Size Calculation (no page limit): Describe the method of power analysis using the Sample Size Form provided in the proposal template.

F. Animal Involvement Justification Form (no page limit): Include the required Animal Involvement Justification (AIJ) form, provided in the proposal template, in ALL proposals, regardless of live animal involvement.

G. Recombinant DNA/Biohazards (no page limit): Applicants using recombinant DNA techniques must confirm that they have complied with National Institutes of Health guidelines for this technology and that they have approval from their institution’s Biological Safety Committee to conduct the proposed research if it is funded. Also indicate any other potential biosafety concerns, including the use of radiation.

H. Facilities and Equipment (one-page limit): Availability of necessary facilities and equipment to complete the proposed study should be documented. If more than one institution is involved, a letter of collaboration from the outside institution(s) must be included at the end of the proposal.

I. Cited References (three-page limit): Include complete citations referenced numerically in the body of the proposal.

J. Budget (one-page limit): Use the required budget form provided in the proposal template. Include annual subtotals, calculated indirect costs and grand totals in all applicable fields. All funds must be
i. **Amount:** The budget cannot exceed $10,000 plus indirect costs (total maximum award $10,800).

ii. **Duration:** Maximum study duration is one year.

iii. **Budget Limitations:**
   1. **Equipment:** Requests for equipment purchases may not exceed $5,000.
   2. **Tuition:** Morris Animal Foundation does not pay for tuition.
   3. **Salary:**
      a. **Full-Time Positions:** Salary requests for applicants in full-time employment in academic or non-academic settings will not be approved.
      b. **Less than Full-Time Positions:** Salary requests for time spent on the project are permitted but must be clearly defined and include the percent appointment and other current salary support.
      c. **Technicians, Residents, Fellows and Students:** Salary requests are permitted but must be clearly defined and must include percent time commitment.
   4. **Travel:** Travel expenses required to complete the project should be clearly justified and cognizant of environmental concerns and possible ongoing disruptions to travel, particularly internationally. Work should be conducted wherever possible by teams already in-country. Requests for travel to scientific meetings may not exceed $3,000.
   5. **Indirect costs:** Up to 8% of the budget can be applied to indirect costs, if your institution charges for these costs. Where a subaward to another institution is proposed, the total indirect costs may not exceed 8% of the total direct costs.

K. **Itemized Budget Justification** (one-page limit): Specifically justify the cost of each item in the budget. Costs not justified will not be approved. The role and percent effort of each individual for whom salary funds are requested should be clearly defined.

L. **Current and Pending support** (no page limit): Include all financial support (e.g., federal, nonfederal, commercial, institutional) currently available in support of the principal investigator and co-investigators’ research programs. Overlap, whether scientific, budgetary or commitment of an individual’s effort greater than 100%, is not permitted. Provide the following information for all current and pending support:
   i. **Project ID**
   ii. **Funding Source**
   iii. **Project Title**
   iv. **Summary:** Brief summary of the objectives and results to date.
   v. **Budget:** In the case of an active project, provide the budget. For a pending project, provide the proposed budget.
   vi. **Timeline:** In the case of an active project, provide start date projected end date. For a pending project, provide the anticipated start and end dates.
   vii. **Overlap:** Summarize any potential overlap with the proposed project regarding the science, budget or committed effort.

M. **Prior Morris Animal Foundation Support** (no page limit): If the principal investigator and/or co-investigator(s) have received prior support in the past three years, provide the following information for each award received:
   i. **Morris Animal Foundation Grant ID**
   ii. **Project Title**
   iii. **Summary:** Provide a brief summary of the objectives and results to date.
   iv. **Budget**

---

Revised July 2020
v. **Timeline**: Provide start and end dates.
vi. **Presentations**: List of the presentations resulting from the award.

vii. **Publications**: List of the publications resulting from the award. If none have yet resulted, please provide a detailed description of current progress including the intended journal.

viii. **Patents**: List of patents resulting from the award.

N. **Biographical Data** (two-page limit per individual): For each principal investigator and co-investigator, provide the following information:

   i. **Name**
   
   ii. **Position/Role** on this project.
   
   iii. **Current Position** (title, name, and address of institution)
   
   iv. **Education/Training** (degrees, institution, year of graduation, field of study)
   
   v. **Previous Positions and Honors** (include membership on any advisory committees)
   
   vi. **Relevant Peer-Reviewed Publications** (include titles, all authors, and complete reference)

O. **Letters of Support**: Include support letters from all collaborators.
